

Physical Education

Our PE curriculum enables pupils to develop their skills and knowledge from Reception through to Year 6. Each year the curriculum builds on previously taught content designed to ensure pupils' fitness, agility, coordination and stamina improve. All pupils, regardless of ability or need, are able to participate, learn and progress, and, all pupils will be able to experience inclusive sports along with traditional games. This, along with sporting opportunities and events both in and out of school, will enable all pupils to find their own passion for sport and physical activity. Our focus will not only be on the physical benefits of exercise but on building resilient, respectful and hardworking pupils. Through our PE curriculum, pupils will develop an understanding of their bodies, the importance of exercise and how to lead a healthy life to support their physical, social, mental and emotional well-being. This is promoted not just through PE lessons but also through active learning during lesson times and during break times.
