

The Caldecote Commitment

Happy, Healthy, High-Achieving

To bring our vision to life, we have established **The Caldecote Commitment** — six core principles that guide everything we do.

Commitment 1: Achieve Potential through High Expectations

We believe every pupil can succeed and grow when challenged with high expectations. We set ambitious goals and provide the support needed to help every child reach their personal best, celebrating success at every step.

Commitment 2: Provide Opportunity and Choice

We work hard to deliver a challenging knowledge-rich curriculum, which is delivered in a memorable way. In addition, our diverse enrichment opportunities—sport, music, cultural activities— enable children to explore interests, develop skills, and make meaningful choices about their learning and personal growth.

Commitment 3: Deliver Purposeful Practice

We believe in the power of high-quality teaching that engages, motivates, challenges, and supports every child, particularly those from disadvantaged backgrounds or with additional needs, ensuring they make sustained progress and thrive. We implement structured and well-planned lessons that follow the science of learning, to support children to know more and do more.

Commitment 4: Create an Inclusive Culture

We strive to celebrate every child's unique qualities and differences to promote individual growth. We develop a culture rooted in mutual trust, respect, and inclusion, where children feel safe, valued, and enthusiastic about learning. Positive interactions between children, teachers, and peers underpin this culture, fostering a sense of belonging and high levels of wellbeing.

Commitment 5: Grow Successful and Valued Children

Every child is encouraged to take on leadership roles and responsibilities, fostering confidence and a sense of pride. We celebrate successes collectively and individually, ensuring children feel valued and empowered to contribute positively to the school and wider community.

Commitment 6: Ensure Sustainability and Responsibility

We actively embed environmental awareness and sustainable practices into daily school life, preparing children to be responsible citizens who care for the planet and contribute to a sustainable future.
